### **ABSTRACT**

*The role of the Board of Surveying and Spatial Information (BOSSI) includes investigation of complaints against registered land and mining surveyors and implementing disciplinary action which may arise as a result of these investigations. As such, the BOSSI Professional Audit and Investigation Committee (PAIC) is charged with the investigation of complaints that have been received and accepted by the Board. This includes alleged breaches of sections 21 and 22 of the Surveying and Spatial Information Act 2002 relating to unregistered persons carrying out land or mining surveys. This presentation describes the operation of the PAIC, its complaint assessment and investigation process, and details recent cases that have resulted in disciplinary action against surveyors and in the prosecution of unregistered persons.*

**KEYWORDS:** *BOSSI, registered surveyors, investigations, disciplinary action, legislation.*
